

REDUCE YOUR FLOOD RISK

MAKE YOUR HOME FLOOD RESISTANT

If you live in a flood risk area you should always have a plan in place in case a flood should happen. LONGTERM preparations are the best way to ensure your property is protected.

- 1

Know the Risk

 - Do you live within a flood affected area?
Check online flood mapping for your area
 - Check flood points in your home (as per checklist)
- 2

Make a Plan

 - Make a plan in Preparation for flooding
 - Make sure everyone in your home or business knows what to do
- 3

Repair and Seal

 - Check all windows and any external openings and use Silicone Sealant or adhesive patches to seal
- 4

Have the Right Flood Protection Products

 - Make sure you have the right products for your home, eg. Door Barrier, Brick Vent Covers, Toilet Dam etc.

EMERGENCY PLANNING
Know the risks, make a plan,
get a kit & reduce your flood risk

Are you prepared? It's never too late.
Emergencies can happen at any time and
your best defence is to be prepared.

FLOOD ACCESS POINTS
